GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

The New York Customs Investigation.

NEW YORK, May 3.—At a meeting of the Congressional investigating committee to-day, a letter was read from Samuel Welch & Co., Boston, addressed to the Secretary of the Commission, stating that to direct the customs officers at that place to compel all vessels that have been properly registered at other ports should be compelled to pay the tonnage dues which is not required at any other custom-house. The committee adjourned until Monday.

Struck the Track.

DENVER, May 4.—A local passenger train between Des Moines and Keokuk jumped the track yesterday near Ottumwa, killing a man stealing a ride, and more or less injuring thirty passengers aboard.

Kansas Railroads.

LEAVENWORTH, May 4.—Kansas Central R. R. Co. to-day obtained an injunction against the Pacific R. R. Co., restraining the latter from the election of officers, which was to have taken place to-day in Lawrence, Kansas. The plaintiffs claim that a quarter of a million dollars stock in the Kansas Central Co., and a county of Leavenworth by the Company as assignee to the Kansas Pacific, the only legitimate stock ever issued. The injunction commands the road to account for bonds ever issued, sale of all lands, bonds and other property applied for construction.

A Bigamous Californian.

NEW YORK, May 4.—The *World* says Joseph Lee, also known as California Joe, and a prominent Indian fighter, has a wife and family in Colorado, was married clandestinely on the 27th April to Georgiana, daughter of Fred. T. Morrison, one of the largest real estate owners of this city and a very wealthy man. On account of the marriage Morrison locked his daughter up and put detectives after Lopez. He confessed to the detectives that he married for speculation and expected to make $100,000. Morrison has applied to the courts to have the marriage annulled and says he will spend a million dollars to put Lopez where he belongs. The girl is wearing mourning and it is said has been put in an asylum.

The Missing Millionaire.

NEW YORK, May 3.—Nothing is yet heard of the missing man Daly. Mr. Sherwood said he believed Daly had either gone in a desperate mood to Europe, acting upon the suggestion of his son, or had taken a train for the west with the purpose of going to California, there to invest in a company for the manufacture of lime machinery.

Chapter on Alabama Affairs.

NEW YORK, May 4.—Referring to a letter of Gen. Longstreet, the *Times* says editorially: "The State enjoys what is called government, but a government of fraud and wrong, of methods which we would not tolerate in the case of a minority. A moral, social, political system, which drives out the best, and repels both Northern and foreign immigration, is not likely to assist the development of the material resources of the State, and our correspondent finds already that Alabama is worse off than it was three years ago."

Heir to a Fortune.

CHARLESTON, May 4.—The *Gazette* has a long story that Gen. Manson, chairman of the Indiana Democratic committee has learned he is heir to one-fourth of an estate in California, valued at $70,000, under a will probated two years ago.

Money and Stocks.

NEW YORK, May 4.—Silver bars, 125¾ greenbacks, 117¾ gold; silver coin, 3 discount; 1-65 registered 1062, declined, to 62, closed at 64; coupons, 6's @ 21; governments, active and strong; stocks active and strong; Western Union, 92¾; Quicksilver, 14; Pacific Mail, 27¼; Hannibal, 5; Wells Fargo, 85; New York Central, 99; Erie, 63; Panama, 95; Union Pacific, 97; bonds, 104¾; Central Pacific bonds, 108.

Fires.

CLEVELAND, May 4.—Akron, Ohio, was visited by a disastrous conflagration last night, burning L. H. Lambert's furniture ware rooms, Stowe & Robb's plumbing establishment, Germania saloon, Berry's tailor shop, Hoffman's saloon and two barns. Total insurance about $14,000, total loss $40,000. The fire caused by overturning a coal oil lamp.

Theological Trial.

TRENTON, N. J., May 4.—The New Brunswick Presbytery assembled this morning to consider the charges of heresy against Rev. Jas. Miller, a leading preacher of the Presbyterian Church, in that he has published a book denying the Trinity and immortality of the soul. Rev. Dr. Goshman is presiding officer. The trial excites great interest. Rev. D. Studdeford, opened the prosecution by reading extracts from Miller's book and charging that the sentiments held are in opposition and contradictory to the catechisms and confession of faith of the Presbyterian Church. In conclusion of Studdeford's charges, he said he was ready to rely. He said in the first place the Book does not strike at the vitals of religion, and therefore does not contradict the confession of faith. No man in the church believes in the Calvanistic doctrine with the same tenacity than he. He believes in Christ and in his ransom; he believes that the Father was God, the Son was God, and the Holy Ghost was God, but he did not believe in the Trinity. They were separate. Miller then proceeded at length to explain his doctrine as to the immortality of the soul. He owned himself as opposed to the doctrine of Luther. He said he opposed eminent men who opposed it, and he did not think it would be exposed for opposing it. He thinks he would be deposed for his belief in the doctrine of the Trinity and that reliance on the divinity of Christ and the Holy Ghost as God. The doctrine of the Trinity as commonly held, he declared could not be defended by any theologian present.

Appeal to the Synod.

TRENTON, May 4.—The Presbytery to-day by a vote of 15 to 11 sustained the charges of heresy against Rev. John Miller, and he was suspended from the ministry of the Presbyterian church until he will make manifest the errors of his book. Miller announced, it was a moral and intellectual impossibility to renounce his views and appeals to the Synod.

Two Murderers Hanged.

COLUMBUS, S. C., May 4.—Three of the ten convicted Lowndsville murderers, Wightman Allen, John Allen and Jenkins Whitner were hanged at Abbeville court house this forenoon. The other seven were committed to imprisonment for life. John Allen admitted his guilt, but the other two proclaimed their innocence.

News from Red Cloud.

FORT ROBINSON, Neb., May 4.—A courier from here brings a letter from the Red Cloud agency which will reach this point early on Saturday morning. Its camp to-night is only twenty miles north of this post. Forty-seven lodges have gone into the cantonment on the Yellowstone to surrender to Gen. Miles.

Going for Sitting Bull.

CHEYENNE, May 4.—The Seventh Cavalry with 400 men, has left Fort Lincoln and gone in search of Sitting Bull, who is supposed to be north or south of the Yellowstone with some five hundred warriors. The command will hunt him down and bring the Indian when found to the agencies.

WASHINGTON CITY.

U. S. Bonds Strong in Europe.

NEW YORK, May 4.—The *Times'* Washington special says: Recent advices received at the treasury department from London state that sales of 4½ per cents are improving, and indications are that another call for 10,000,000 of 5-20's will be made this week. The Secretary thinks the fact that United States bonds have been less affected by the war than English consols, presents the strongest evidence of the character and stability of American credit abroad. The Secretary believes by the time the syndicate has purchased 200,000,000 of 4½ per cents he will be able to cancel the contract for placing these bonds and will be able to negotiate for the issue of 700,000,000 of the 4 per cents authorized by the refunding act. Sherman believes he will be able to commence the issue of 4 per cents prior to December 1st.

The Silver Question.

CHICAGO, May 3.—The *Journal's* Washington special says some treasury officials are a good deal disturbed over the action taken by the Ohio and Illinois legislature on making the silver coin of the United States a legal tender for any amount for debts public and private within those States. They do not believe this law constitutional but they are chiefly concerned because they regard the action taken by the legislatures of these two States as an indication of a change in public sentiment the existence of which will be felt at the extra session. A prominent treasury official who is very decided in his opposition to the silver movement, said to-day that he was very much afraid its advocates would press action at the extra session of Congress, and that they would succeed in getting some measures through in direct antagonism to the policy laid down by the Treasury department.

The Statistical Bureau.

WASHINGTON, May 4.—The workings of the bureau of statistics will be inquired into by a committee appointed by Secretary Sherman.

Business at the Extra Session.

Some Eastern Republican Senators are in correspondence with leading Democratic Senators, endeavoring to bring about, if possible, an agreement not to consider anything at the extra session except the appropriations. Southern members of Congress now here report that those from their section of the country will insist upon general business, and will not be simply content to pass appropriation bills.

Changes in U. S. Missions.

The *Post's* Washington special predicts a general overhauling of foreign representation, in accordance with the written law of consular and diplomatic service, not allow a long incumbency in office. He is told there will be changes in about all the foreign missions, with the single exception, perhaps, of Turkey, now held by Hon. Horace Maynard, of Tennessee. It is understood he will not be soon disturbed. Those dispatches have already stated the changes to be made in the missions to Spain, France and Switzerland. Others will soon be announced for Russia, Austria and Hungary, where the chances are in favor of Logan, and Germany and other European powers, not even excepting England, for I hear it stated that Pierrepont, now representing the United States at St. James, must vacate. There is a great pressure for the pleasant mission, Gen. Burbridge, of Kentucky, being the most numerously recommended. There are strong applications for the missions to Central and South American States, several of which will be filled by citizens of the South. The important consulates are also eagerly sought, notably those of Liverpool, London, Glasgow, Marseilles and Cairo. Doc cery, of North Carolina, is pretty sure to go to Liverpool, and the contest for the Cairo place is animated between Gen. Sheridan, of Louisiana, and Hon. Charles Pomeroy, both formerly in Congress.

Ben Wade and a Dictatorship.

The *Times'* Washington special says: Col. Lamon says his remarks to which Wade replies are not reported correctly; and says what he meant to convey to the public was that after Lincoln was nominated at Chicago, Ben Wade and Henry Winter Davis endeavored to form a combination to call a new convention and nominate another candidate; that after Lincoln was elected, Chief Justice Chase called upon him one day, when Lincoln asked him if he knew of any arrangement having been made and suggested by Wade or the calling of a new convention, whereupon Chase admitted he did, and pulled from his pocket a correspondence to which Wade was a party, which insisted upon a combination of public men to have a new convention called, at which he, Chase, should receive the Republican nomination. Lamon also intimated that there was a correspondence on the part of Wade looking to a dictatorship, with either himself or Fremont as dictator.

Rotterdam Consulate.

WASHINGTON, May 3.—Andreas Witman, of New York, will shortly be appointed to the vacant consulate at Rotterdam.

Time of the Extra Session.

It is stated to-night on authority of a member of the Cabinet, that the date heretofore fixed upon for the commencement of the extra session of Congress, viz.: June 4th, will be adhered to and formally inserted to-morrow in a draft of a proclamation, which will be then ready for promulgation.

From the General Land Office.

The commissioner of the general land office, in response to a request of the agent of the California Associated Press, has to-day telegraphed the local land offices at Sacramento full authority to make public all facts concerning the fraudulent entries of soldiers' homestead scrip. He says he is not only willing but desires that complete publicity be given to all matters of this nature.

Commissioner Williamson expresses much surprise at the sensational statements of the New York *World's* Washington dispatch that the desert land law was smuggled through Congress, and says the bill was carefully considered by the public land commissions of both houses and elaborately discussed in open Senate, so that its provisions were fully understood. It was reported from the Senate committee by Gov. Booth, and was heartily approved and advocated by the entire Pacific coast delegation in both houses and of both political parties. He also says there is no reason to apprehend that the law will be abused to the detriment of public interests, as its provisions are very guarded and the regulations of the department are amply sufficient to prevent the acquirement of title under it to any lands except such as are not susceptible of cultivation without irrigation and are also destitute of timber and minerals. The experience of the department has been that such land cannot be sold or even given away as homesteads, and it is therefore considered a wise policy to sell them in sections at $1 25 per acre as the only means of inducing the investment of capital to reclaim them. The mention of Morrison in the *World's* dispatch is undoubtedly a mistaken allusion to what he said regarding the timber land bill and not in reference to this measure.

Not Afraid of Discussion.

WASHINGTON, May 4.—A member of the cabinet says of the extra session that the change in date was not in any degree caused by apprehension on the part of the administration as to the consequences of an early Congressional discussion of the President's Southern policy.

An Apology Demanded.

WASHINGTON, May 4.—Our Mexican minister has informed the State Department of the release of the American consul at Acapulco, and Secretary Evarts has instructed him to enter a formal protest and demand from the government of Mexico an apology and full reparation for the outrage.

Will Attend to Business.

The President declined the invitation of the Boston Board of Trade to visit Boston, on account of the condition of public business.

U. S. Consul at Tientsin.

WASHINGTON, May 4.—The President has commissioned O. N. Denny, of Portland, Oregon, Consul to Tientsin, China, to fill a vacancy.

The Whisky Cases.

CHICAGO, May 4.—The *Journal's* Washington special says Secretary Sherman has approved the opinion of Assistant Secretary French, adverse to the claim of Roelle, Junker & Co., of Chicago, for release from civil prosecution for about half a million dollars unpaid whisky tax and penalties for violation of revenue laws. The plea that Secretary Bristow and Binford Wilson promised complete immunity for the squealers was not made good. This is a test case.

The Extra Session Postponed.

WASHINGTON, May 4.—The Cabinet was in session nearly three hours to-day, and it was decided to postpone the extra session of Congress until the 15th of October, next. This change of the original programme was made upon careful consideration of the general interests of the country with almost a unanimity of desire, on the part of the business community, as well as of members of Congress themselves as far as they could be consulted, that there should be no session of Congress this summer, and upon much inquiry into all the circumstances of the case, it was found that without any immediate appropriation of money the army would be clothed and supplied with all its necessities, and that until the 15th of October that only one regular pay day has to be passed. It was also considered that if Congress meets in October it may remain in continued session and finish its business before next summer, so as to avoid the inconvenience of the hot season next year as well as this, and the proclamation calling an extra session on October 15th is to be issued without delay.

Financial Embarrassment

WASHINGTON, May 4.—The Department of Justice will suffer much inconvenience by the postponement of an extra session, as there will be a deficiency of at least half a million dollars by the 1st of July to be provided for by Congress. There is no money to pay officers of the navy for the months of April, May and June. The amount required is about $800,000, for which they will have to wait until the extra session. Army officers also will be considerably embarrassed, as they can't receive their pay after the 1st of July until the army appropriation bills have passed.

Robt. G. Blaine, brother of Senator Blaine, has received the appointment from Sergeant-at-Arms French, of the Senate, of Assistant Superintendent of the Senate document room. He was formerly clerk in the office of the Secretary of the Senate, but was removed last December by Secretary Gorham.

BY ATLANTIC CABLE.

Not Disposed to Interfere.

LONDON, May 4.—A dispatch from Rome says Ex-Queen Isabella has requested the Pope to use his influence with King Alfonso to dissuade him from contracting a marriage with a princess not of the Catholic faith. It appears the Pope is indisposed to interfere.

Silver.

LONDON May 4.—Silver 53¾d.

English Turf.

LONDON, May 4.—At New Market the 1,000 guineas stake was won by Belphobe, Lady Reynolds second, Lady Golightly third.

Steamship in Trouble.

QUEENSTOWN, May 4.—The steamship *Hecla*, from Boston, arrived, reports having passed the steamship *August Andre*, from New York for Antwerp, April 11th, with rudder gone, but had a temporary one rigged.

French Republicans and Catholics.

PARIS, May 4.—Jules Simon's speech in the Chamber of Deputies about ultramontane agitation has irritated the Republican papers, which assert that the position of the ministry is endangered thereby. His conciliatory tone toward the Catholics is believed to be the result of MacMahon's intervention.

Gambetta Speaks in the French Chamber.

VERSAILLES, May 4.—In the Chamber of Deputies, the debate on M. Lelland's interpellation was reopened by Gambetta, who said that in the presence of intrigues which surprised the country and alarmed Europe, the Republican party ought to proclaim its principles and endeavor to save the state in which a breach had been made by partisan interests and Catholic commissioners. He charged that members of former reactionary cabinets who have taken refuge in the Senate were directing the present movement after inveighing against the increase of clergy. He declared it was time the churches should be relegated to their subordinate rank in the state. The clericalists sought to induce France to break with the Italian revolution. Clericalism was an enemy. The last statement was greeted with prolonged applause by the Left. Minister Simon indignantly repudiated the assertion that his speech yesterday was dictated by the priests. He repeated his declaration of the government's determination to make the law respected. They would do so with all the more energy as advantage would be taken if impunity was enjoyed by certain persons, probably meaning the bishops, to prejudice good relations with Italy. M. Mun, recently elected Clericist deputy, denied that Catholics desired war with Italy. The chamber, by a vote of 361 yeas, 121 nays, adopted [order] of the day presented by the Left and accepted by government, declaring that the chamber considering that recrudescence of Ultramontane manifestations constitutes danger to peace at home and abroad, calls upon government to use all lawful means at its disposal.

EUGENE ITEMS.

Our correspondent at Eugene City, under date of May 4th, sends the following:

Joseph Ogle, of this place, died at Halsey last week.

Hon. W. H. Odell returned from Washington last week.

The University B. B. boys are contemplating playing a match with Monmouth boys at Albany soon.

Mr. Wagner has moved his dry goods store from this place to Salem.

Hon. W. H. Odell and L. G. Jackson, of this place, went to Salem on Wednesday last to take charge of the *Statesman*.

The team belonging to the butcher firm of Boyd & Renshaw, run away last Sunday and broke the wagon up considerably.

One Zack Moore, of this place, seems to have a mania for fighting, having been engaged in three or four during the week.

The student of the University that we reported as having run away, in our last, was captured in Portland, and is now at home.

Charley Thomas, who has been acting as express agent at this place for some time past, started for Idaho home in the East last Tuesday.

One of the blacksmith shops caught on fire last Tuesday evening, but owing to the promptness of the fire department it was soon extinguished.

The students of the State University are going to have a picnic on Spencer Butte to-morrow, at which Prof. Condon promises to deliver a lecture on the structure and formation of this valley.

The lady students are going to show their independence by providing their own means of conveyance to the picnic to-morrow, some fourteen of them having hired a team and wagon and driver.

Yesterday a boss of one of the China washhouses armed himself with a hatchet and made a raid upon his neighbor Chinaman, who also is proprietor of a washhouse, but he was prevented from doing serious damage by a policeman interfering. All difficulties were amicably adjusted by His Honor, Recorder Fazan, fining the Chinaman $25 and costs.

Last Sunday some ten of the "anglers" of this city, all furnished with the necessary fishing tackle, chartered a coach and repaired to the McKenzie to make war on the finny tribe. After working all day they came back to town at night with only one small fish, and reported that the fish would not bite. Judging from their appearance, we were led to believe that they had been snake bitten.

Boston Globe: "Now that Carl Schurz is Secretary of the *Interior*," remarked Our Dan yesterday, with much concern, "it is to be hoped that simultaneously with the restoration of the 'dollar of our fathers' lager beer will be brought to the old style figures of three cents per glass."

"The way it is," said little Johnny, describing a raffle at a church fair, "you see somethin' and you give half a dollar for a chance to win it, another fellow always gets it, and they never offer you your money back."

THE EASTERN QUESTION.

The Black Sea Blockaded.

The Porte notified the powers yesterday that it had declared a blockade of the whole Russian coast of the Black Sea. Delays of three days will be granted vessels wishing to enter and five days to those intending to leave the Black Sea.

The Situation at Kars.

Mondhir Pasha announces the Russians advancing in great force toward Kars, with the object of cutting off Turkish communication with Erzeroum. The Turkish commander at Kars has marched out with nine battalions and occupied Ychilakli.

A Turkish Circular.

BERLIN, May 3.—A Turkish circular of May 2d has been presented to this government. The Porte protests against the Russo-Roumanian convention as illegal and facilitating the invasion, and says the prince authorizes Roumania to be in the power of a hostile government.

Miscellaneous War Notes.

A dispatch from Galatz says about 50 shots were exchanged between the Russian batteries at Ibrael and a Turkish turret ship and gunboat. The apparent object of the Turks was to ascertain the position of the battery. It is certain that the Russians will bridge the Danube below its junction with the Pruth, and also at Turna, nearly opposite Nikopolis. No fresh troops have recently crossed the Pruth towards Galatz; but a large mass is concentrated on the frontier side.

A despatch reports that Austria has recalled all Austrian officers in Turkish service. A special from Kischineff says numbers of Bulgarians arriving here are being formed into battalions and officered by Russians. It is expected that at least one division numbering ten thousand men will be formed of Bulgarians who have fled into Roumania.

A correspondent declares that evaluation of Dobrudschva is resolved upon, the Turks falling back upon their line of defense. Several Russian merchantmen have already been captured by the Turkish fleet. A special from Bucharest says the bombardment of Ibrael will probably be precipitated by conclusion of an offensive alliance between Roumania and Russia, which is already regarded as inevitable by leading Roumanian politicans of all parties.

A Vienna correspondent reports that Austria has not protested against the stoppage of navigation of the Danube, and won't do so, as she would thereby prejudice her own cause in the event of her having to use the Danube for military operations.

The Montenegrins hold Duga Pass, blockading Nicsic and Goransko.

Suleiman Pasha with 20,000 men, is marching to relieve Goransko. Severe fighting is expected. The Turks have persuaded 20,000 South Albanians to take arms on condition that Montenegro will be given up to plunder.

CONSTANTINOPLE May 4.—The press law of '65 has been suspended. Newspapers are placed altogether under the administration's control.

The Chamber of Deputies are discussing the ministerial bill for proclaiming a state of siege here.

A telegram from the Turkish commander at Batoum says, Russian military operations were arrested by rainy weather.

CAIRO, May 4.—A committee of the Assembly having decided upon the imposition of the extraordinary war tax of 48,000 pounds the Khedive has telegraphed to Constantinople that the Egyptian contingent now in Turkey numbering 8,000 men, will be raised to 12,000. The remainder of the Egyptian contingent will be kept in Egypt for the protection of the Suez canal.

BUCHAREST, May 4.—The official journal publishes the Prince's assent to the convention with Russia.

It is reported that the bombardment of Ibrail and Barbosi recommenced yesterday evening.

In the Chamber of Deputies yesterday the minister of foreign affairs, in reply to a question concerning the bombardment of Ibrail, stated that the Russian batteries fired first upon the Turks, who replied. Five bombs fell into Ibrail, two of which struck the residence of the prefect. There was a slight loss of life and one house was destroyed. This occurrence although deplorable was not intended by the Turks. The minister concluded by saying he had opposed every solicitation to declare the independence of Roumania and that the country did not consider itself in a state of war with Turkey.

Austria and Hungary on the Eastern Question.

LONDON, May 4.—The Austrian Reichsrath and Hungarian Diet to-day made identical replies to the interpellation about the Eastern question to the following effect: Austria maintains the attitude of a benevolent interest in the Christian subjects of the Porte, and while observing a strict neutrality reserves the right to protect its own interests or intervene with efforts for the cessation or localizing of the conflict. The ministers recognize the empire's intimate connection with the interest and affairs of European Turkey, but deem a resort to warlike measures for their protection unnecessary in view of the attitude of the other powers and the cordial support which the government can command from representatives of the people whenever action becomes necessary.

Russians in Turkey.

LONDON, May 4.—The Porte has relinquished its intention of expelling all Russian subjects from Turkey, but reserves the right of expelling suspected persons.

Russian Mobilization.

ST. PETERSBURG, May 4.—The mobilization of the Russian army will not become general. Three divisions of the St. Petersburg corps have been placed on a war footing. The first and second divisions of infantry of the guard are being mobilized. These troops will for the present remain as a reserve in their present quarters.

Roumania and Turkey.

CONSTANTINOPLE, May 4.—Safvet Pasha has informed by telegraph the Ottoman ambassadors abroad that in consequence of the convention between Roumania and Russia he has notified the agency which represents Roumania at Constantinople that its functions are suspended. Roumanians in Turkey will nevertheless continue to enjoy protection of the laws, and Roumanian vessels will remain under the protection of Turkish authorities or Ottoman consuls abroad.

SOUTH AMERICA.

The Sont's American War.

PANAMA, April 25.—The war in Columbia virtually ended on the 6th inst. The Conservative forces were defeated at Manzalles by Gen. Julian Tejulo and the whole State of Antioquia capitulated. On the 10th, near Rio Hacha a battle was fought between the forces of Gen. Ponci, Liberal, and Fareas, Conservative, in which Ponci is reported victorious. Gen. Tejullo is now the popular candidate for the next Presidency of Colombia.

Tweed's Release Probable.

NEW YORK, May 4.—The *Daily Bulletin* says the Attorney General has decided that the public interest will be best served by Tweed's release, and this will probably occur in a short time.

Mr. Tweed is the only person involved in the recent statements who has not come out with a denial. Is it possible that he is going to remain silent under the awful charges which he brings against himself?

SAN FRANCISCO, May 3.—Gov. Lower California News.

SAN DIEGO, May 3.—The *Union's* Tucson special says the political situation is unchanged in Sonora.

On the 18th the Apaches stole 17 horses at Cucurpo, Sonora. Mexicans followed and surprised the Indians at night in the mountains, killed six and recovered all the horses.

Agent Clum telegraphs Goy. Safford from Fort Craig on the 26th as follows: "I have Geronimo, Ponica, Girmo and 14 other prisoners. The worst are chained; expect to start on the 30th with all the Indians for San Carlos. Entire success thus far. Pienzenoy, Nolgee and about 40 others are now absent in Sonora and Arizona. Scouts have gone for them."

Irrigation Election.

STOCKTON, May 3.—The *Independent* has advices from all precincts of the west side irrigation district regarding the result of the late election with exception of Orvilego and Fireboughs, which, however, will not affect the general result. The vote as heard from stands 437 tax yes, and 200 tax no. The measure is undoubtedly carried by at least 200 majority. There is great rejoicing among farmers of the west side, who are hopeful of an era of prosperity at no distant day.

Mining News.

SAN FRANCISCO, May 4.—James C. Flood, of Flood & O'Brien, says he knows nothing of the reduction in the price of milling bonanza ore from $12 to $10, telegraphed from Virginia as if authorized by his copartners in the mill business.

To-day was the regular day for the usual monthly meeting of the trustees of Con Va mine, but the time for the meeting was deferred until next Monday. It is expected the future dividends will be paid on the 15th, instead of the 11th, to make them conform to the California dividends.

Mormons Arming—Gentiles Alarmed.

SALT LAKE, May 3.—Mormons throughout the Territory are secretly arming, equipping and drilling with a view to resist the arrest of Brigham Young should the present grand jury, which is composed of Gentiles, find an indictment against him. The Mormon co-operative store, which is controlled by Brigham himself, is receiving and shipping to various settlements in the Territory large quantities of ammunition and breech-loading rifles. Reports concerning these facts are coming in from all quarters, and the feeling of uneasiness among Gentiles is manifesting itself. The matter has been placed before Gov. Emory, but he is a Mormon of the S. B. Axtell type, spending about half his time with Mormon apostles and can see no trouble brewing. Gentiles realize that he commands the situation, but have no confidence in his integrity and therefore they watch the secret arming of Mormons with much solicitude.

FROM HUBBARD.

"More Anon," writing from Hubbard, under date of the 4th, says:

Our little burg, though not often seen in print, certainly deserves recognition occasionally, and for this purpose I trust you will give space to my few remarks.

Last summer quite a number of buildings were built, and it is the belief now that the number to be erected this season will exceed that of last, so that before winter is again at hand we will form quite a village. At present there are avenues for men of limited capital to engage in, in which I believe they certainly would prosper. We could give constant employment to a wagon maker, butcher, saddler, and others requisite for the prosperity of a community.

Our citizens (though not aware we are in a cow county) are earnestly agitating the

DISASTROUS LEADERSHIP.

In California more than in any other State, except perhaps Pennsylvania, the direction of party affairs has been for many years in the hands of a few politicians, who have managed nominations, dictated platforms and controlled appointments to official places. Under this management in California the Republican party cannot be said to have prospered greatly. As a result, the State government has been in the hands of the Democrats much of the time during the last ten or twelve years, though the State has never failed since 1856 to go Republican in a Presidential election. The real head of the set who have so often plunged their party into defeat is Geo. C. Gorham, for several years past Secretary of the United States Senate. Since he forced himself to the front and by tricky management bore off the nomination for the Governorship in 1867, there have been divisions in the party organization, and in consequence numerous defeats. He is a skillful manager of primaries and conventions, no doubt; but his handiwork is always spoiled by the elections that follow. Gorham, Sargent and Carr are the principals in this organization, and whenever they appear as prominent figures defeat has invariably followed. Gorham was at the head of the State ticket in 1867, and his defeat was overwhelming and ignominious. From a Republican majority of twenty thousand the State was changed to a majority of ten thousand for the opposing party. The lesson was so tremendous that Gorham and his crowd couldn't come to time on the next occasion, and Booth was called to the leadership. The result was a signal victory. On the wave that overwhelmed the Greeley Democracy in 1872 Sargent reached the Senate. But it has never been possible for him to harmonize and unite his party. Two years ago Gorham, Sargent and Carr again captured the nominating conventions. At once the Republican party divided again, and the opposition carried the State by a great majority, electing nearly all the members of the legislature and securing most of the long-term Senators, who now will vote for Sargent's successor. Under this disadvantage the Republicans are now to make an effort to elect a Senator in California. As if this were not sufficiently discouraging, Sargent and Gorham have again come home to take direction of the canvass. The latter in an interview declares in strong terms his opposition to the action of the President in Southern affairs; says that the title of Packard is as good as that of Hayes; insists that it was the duty of the President to support Packard with the military forces, and that for his own part he will not consent to any expression by Republicans in California of approval either of the President's acts or intentions. Still, for the sake of harmony he would agree that no expressions of dissent shall be made; but if there be an attempt to endorse the President's "extraordinary course," the Republicans, he predicts, will be beaten out of sight. As a matter of fact, nothing will so completely "beat them out of sight" as the presence of Gorham and his fellow wire-pullers, and the intrusion of their advice. With these managers in the foreground, no Republican can entertain a well-grounded hope of the success of his party in California in the contest now approaching. The experience of the past justifies this observation. In no other way could these politicians do their party so great a service as by making themselves obscure and trying the efficacy of silence.

GAMES OF CHANCE.

Speculation, however wild, if it only succeeds, will easily pass for the triumph of sagacity in business; those who fail, if any note at all be made of them, will be derided as wanting in judgment for business, and nobody will see how they could have expected success. Dabbling in mining stocks is a game of chance, with the chances mostly against the "investor," as many in Oregon have learned to their permanent disadvantage and regret; and so really to a great extent are "operations" in grain. Persons who bought and held, and so had the advantage of the late unprecedented rise, won this time, and get great credit for good judgment. So late as the 22d of April the New York *Times* could not believe there was any good sense in the speculative movement in grain; and it proceeded to talk thus:

Gambling in stocks, under the operation of a disgust which seems continually to widen, has its counterpart in the gambling in breadstuffs, for which the apparently inevitable war in Europe furnishes an excuse. The morality of the transactions does not essentially differ, and one is not more likely to end in disaster than the other. The marked and general rise in prices which, within the last few weeks, has taken place in breadstuffs and provisions is almost altogether speculative. It is based not upon what is, but upon what may be.

All this was true at the time it was written; but the success of the speculators and their vast gains throw over the whole operation a glamour that makes most people forget that it was largely a game of chance after all.

The OREGONIAN has often given expression to a belief that the only remaining chance of getting a railroad for a long time to come, is in urging the renewal of the land grant of the Northern Pacific. This opinion is shared by large numbers. In certain matters of vital interest to Oregon it would not be difficult to obtain amendments. These our representatives would insist upon. The company now has in operation 650 miles of road. Last year its earnings exceeded running expenses by nearly half a million dollars. Mr. Wright, president of the company, had intended to visit Oregon early this summer, but it was given up for the present in consequence of the supposition that the special session of Congress would be called early, and it is the intention to bring forward the bill at the earliest possible time. Now that the session has been postponed till October it is possible he may come this summer. The object is to look at the situation with a view to forming an opinion as to the proposed route along the Columbia river and connection with Puget Sound.

Roumania, though nominally a suzerainty of the Porte, openly sides with Russia in the war. Prince Karl, the Roumanian ruler, is a German of Hohenzollern stock. The country contains five or six millions of inhabitants. Most of them are engaged in agriculture, and about ninety per cent. are Greek Christians. Legislative power is in the hands of a parliament chosen by a suffrage nearly general. An annual tribute has been exacted by the Sultan, although the right to local self-government was guaranteed Roumania by the treaty of Paris. The prince is nominated by the parliament or council, and confirmed by the Ottoman government. The alliance of Roumania is of immense advantage to Russia.

The forces of Russia pressing upon Turkey along the line of the Danube, have been heretofore stated at 300,000 men, with a reserve line of 120,000 more. Estimates of the Turkish forces opposing them sum up about 115,000 infantry, 3,000 artillery and 216 guns, besides about 6,000 gunners in the garrisons along the Danube. Russia's prodigious forces move slowly, but if properly handled are strong enough to envelop and overwhelm their enemy.

It is stated that the position of collector of internal revenue has been tendered to Hon. John C. Cartwright, of the Dalles; also that the place will be accepted by him. This appointment, though not in the line of civil service methods, is otherwise entirely fit. Mr. Cartwright is every way capable. A few days ago we mentioned a rumor that Mr. Denny's resignation was not altogether a voluntary act. It is stated, however, from an authoritative source that it was entirely so.

In the news from the seat of war in Europe mention has often been made of the Miridites. These people, says a San Francisco paper, are a sect of Catholic Christians, subjects of the Porte in Albania. They are reputed to be the fiercest and best fighters of the region to which they belong. It was in a night attack upon the Miridites by the Suliotes, in 1823, that Marco Bozzaris, whom Fitz Greene Halleck has immortalized in verse, lost his life.

There is a story that an effort will be made to make Gen. Banks Speaker of the House, and this is reasserted to-day. But it is positively known that Garfield of Ohio is the administration candidate, and that he will receive such aid as President Hayes can give. There seems little reason to suppose that any one other than a pronounced Democrat, who will be named by a Democratic caucus, can be selected.

The Following Certificates Speak for Themselves:

TO DR. PAUL M. BRENAN, Tremont House, Seattle—For the past year and a half I have been suffering from Nervous and General Debility, Kidney Disease, Loss of Flesh and Strength, dizziness in the head and a constant pain through the back and loins. I became so debilitated and broken down that I was unfitted for business. I have been to Victoria and all over the coast under medical treatment for the past nine months, without receiving any benefit whatever, and had almost given up hopes of ever recovering, until I came under your treatment, about seven weeks ago. From the very first your treatment seemed to work like a charm and I constantly improved from the beginning. I have gained 14 pounds of flesh, and I am now, thanks to your skillful treatment, perfectly well, and am able to return to my business on the Snohomish. JAMES KING.
Seattle, March 31, 1877.

To the People: I have been troubled with chronic Nasal Catarrh for years, the disease being so aggravated that there was constantly an effusion of matter passing down into my throat behind the palate and down through my nostrils.

My nose became depressed between the eyes and swollen on each side. I was told by physicians that it was a polypus: that some of the blood vessels were involved and that the removal would endanger my life by hemorrhage. I became so bad that I made up my mind that I must have immediate relief or die.

As a last resort I applied to Dr. Paul M. Brenan, who, after a moment's examination, determined what to do. He said the nasal bone was involved and diseased and that there would have to be a portion of it removed. He at once removed the bone tumor containing the ulcer; also the diseased portion of bone and patuestory gland and cured the catarrh. I am now perfectly well and as free from disease as ever I was in my life.
THOMAS P. MURPHY,
Seattle, April 5th, 1877.

DR. PAUL M. BRENAN—*Dear Sir:* I take great pleasure in stating for the benefit of those who are afflicted with any chronic disease, that *I am now a well man.* For the past two years I have been under the medical treatment of different physicians, from which I have received no benefit. I have been suffering with general and nervous debility, a difficulty in my stomach, and at times dizziness and severe headache, almost incapacitating me for work. About three weeks ago I put myself under your care, and I can say with delight that I am cured and feel like myself again, after having partaken of your skillful treatment. To me now, labor seems a pleasure. I say this much, hoping it will be the means of attracting the suffering to you who can relieve and cure them.
Your's Truly, JOHN BALLARD,
Employed at Colman's Saw Mill.

[I will not publish any cures performed by me unless by the full consent of the parties.]

THE "CORVALLIS."—The new governm[illegible] snag puller which has been christened *Corvallis* was finished a few days ago, and ye[illegible] day was brought up to the foot of Wash[illegible]ton street. This new boat has been constructed at a cost to the government of about[illegible] 100. It is a great improvement over the[illegible] boat formerly used a one the channel o[illegible] Upper Willamette, in every respect. [illegible] John Steffen was the contractor, and the [illegible] was constructed under the personal supervision of Mr. R. A. Habersham, who has [illegible] charge of the work of improving the [illegible] channel of the upper river, and everything pertaining thereto. The *Corvallis* is 100 feet long, 23 wide, and 3½ feet hold. Throughout she has been built in the most powerful and substantial manner possible. The craft is now completely and thoroughly refitted and supplied with every necessary appliance. [illegible] is the most complete boat of the kind ever built for the Upper Willamette, and is prepared to perform a great deal of hard and effective service. A 12 horse power portable engine is placed on the boat, which is capable of working all the machinery and tackle on board the snag puller. With the immense advantage obtained by means of the machinery, the most formidable obstacles which now obstruct the channel of the Upper Willamette will readily be removed. The boat will be manned by a crew of eight men. Capt. Geo. Gore has the [illegible] command of the boat, and superintends in person the operations during the season. This morning the boat will start up the river. She will be towed up as far possible, and the summer's campaign against the snags and logs be inaugurated. There is no doubt but that a very effective season's work will be performed by the new boat.

A STRONG OLD DRAM.—Love of the "ardent" frequently is a fruitful source of trouble. Two men named respectively Billy McGagh and "Beef Steak Tom," alias Tom Moore, found out to their satisfaction yesterday. The strong drink is raging. These worthies were engaged yesterday in assisting Mrs. Pe[illegible] to remove from a house which stands a the corner of B and Second streets to one located on the opposite side of the street. While thus engaged the men found a bottle containing some liquid which smelled extremely strong of bad whisky. Notwithstanding McGagh and Moore were both cautioned by Mrs. Pe[illegible] and her daughter not to touch the contents as the bottle contained poison, they watched an opportunity, and when unnoticed, each took a good swig. Very soon after drinking, the men were taken violently ill. They were seized with terrible cramps, resulting in convulsions. In great alarm Mrs. Petty sent for Dr. Glass, who came and administered a powerful emetic. After some time the medicine produced the desired effect and gradually the spasms ceased. We visited the men this last evening and found them much better though still in a very critical condition. The bottle they drank from contained a quantity of salmon berries dissolved in whisky. These berries are known to possess very poisonous qualities, and the men are extremely fortunate in escaping with their lives.

THE OPERA TO-NIGHT.—It seems our people can never forget the very pleasant entertainments furnished by the English and Comic Opera Company when here a few months ago. Now they return to us stronger in numbers and with a better arrangement of parts and voices to once more delight our citizens. They do not come to burden us with their presence, but in response to a very general desire and likewise direct requests of many of our most influential men. What better evidence of their merit is needed than the fact that the Victorians for nearly two weeks just passed, crowded their theater night after night, and such was their enthusiasm that they even promised the company a complimentary benefit if they would remain another evening, but it was impossible for the troupe to comply. Their coming has been anxiously awaited here, and to-night we are glad to say, they will make their appearance in "Maritana," which we are assured will be rendered better than ever. The company has a host of friends who will crowd the house and give them a real hearty welcome.

AT ASTORIA—Prof. H. C. Kay, the very clever musician, and orchestral leader for Mr. Jolly Jack's dramatic company, arrived last evening from Astoria. He informs us that Mr. Jack has been doing a very fair business at Astoria, and that the prospects are very encouraging, so much so that Mr. J. has conducted to prolong his stay at Astoria for an indefinite period. The hall which has been occupied by Mr. Jack is now undergoing a complete renovation. A new stage is being laid and a gallery constructed. When these improvements and alterations have been completed Mr. Jack will have a very neat and snug little theater. A week or more will be required to make the changes, during which time no performances will be given.

COULD NOT LAND.—It was the intention of Col. Wilson, when he went below, on the *Shubrick*, to stop at all the light stations along the lower coast for the purpose of inspecting them and also to furnish the necessary supplies of oil, etc. The *Shubrick* was able to touch at Cape Blanco and Arago and allow the required inspection to be made; but the weather was so very boisterous at Foulweather that the tender could not land in safety. The steamer proceeded on to San Francisco and will not touch at the light station (mentioned) until her next cruise, which will be made some time during June.

COMMENDABLE COURTESY.—Rev. Samuel Daniels, a local minister of the M. E. church from Iowa, has just taken up his abode in his new residence near Mt. Tabor. On Thursday evening last the good citizens of that locality turned out in force and gave Mr. Daniels and his family a very cordial reception,—each one evincing to the family such tokens of welcome as disposition prompted. Altogether it was a demonstration of Oregon hospitality and courtesy to strangers that we are always gratified to note. Other localities may be profited by such a commendable example.

STEAMBOAT EXCURSION.—The ladies of the Aid Society, connected with the East Portland M. E. church are making arrangements whereby an opportunity will be given to the citizens of Portland, East Portland and vicinity, to make a pleasant steamboat excursion to the great Cascades of the Columbia, on the 19th of May. Tickets for the round trip will be at the lowest rates. One of the O. S. N. Co.'s commodious and fast running boats has been engaged, and everything will be attended to necessary to make the trip one of enjoyment to all who attend.

OBSEQUIES.—All that is mortal of the late Geo. Abernethy, was consigned to its last final resting place yesterday afternoon. The funeral took place from the Taylor Street M. E. Church. Rev. C. V. Anthony, pastor, conducted the ceremonies which were beautiful and impressive, and numerously attended. The cortege was unusually large. The following gentlemen acted as pall bearers: Hon. Jas. K. Kelly, Hon. Henry Failing, Judge H. W. Davis, Dr. James Dickson, Lloyd Brooke, J. J. Meston.

BUOY DEPOT.—Col. Wilson forwarded to the Department at Washington some time ago all the estimates, plans, specifications, etc., for the new buoy depot to be constructed the present season at Tongue Point. Work, it is expected, will soon be commenced, and crowded to an early completion.

MONUMENT SHIPPED.—The monument to be erected over the grave of the late Rev. H. H. Spalding, on the Lapwai Reservation, will be shipped to-day for its destination. The monument is raised by the joint contributions of the children and the widow of Dr. Spalding.

BRIEF NOTES.

Cloudy.

Rain may be anticipated.

"Maritana" this evening.

The steamer *Elder* will sail hence to-morrow morning.

A large number of tickets for the opera ic season have been sold.

It is scarcely necessary to remark that we are in the midst of the picnic season.

Trotting match over the White House course this afternoon. Rare sport is promised.

During the month of April, 14 marriage licenses have been issued by the county clerk.

Yesterday the winter of our discontent was not relieved by the cheering appearance of old Solomon.

The funeral of the late George Abernethy took place yesterday from the M. E. Church and was largely attended.

Never was there a more opportune time for every fellow to get down the European map and locate the seat of war to suit himself.

A keen fellow has just composed a piece of music entitled "Pins and Needles Galop." It is written in sharps, and is said to be full of fine points.

"The only jokes women like to read are those which ridicule men." That accounts for their reading nothing in the paper but marriage notices.

"Wedding invitations and brides are now severely plain."—*Ex.* We have noticed of late that a good many brides become plaintiffs in divorce cases.

U. S. District Court took a recess yesterday afternoon to enable Judge Deady and the attorneys an opportunity to attend the funeral of the late Geo. Abernethy.

What ought to be done with the soulless pounder who perpetrates the following: "The grasshopper revival goes against the farmer's grain. Make an oat of this."

And now come the Emmet Guard and propose to hold their annual picnic on the 27th inst. Committees have been appointed to make all necessary arrangements.

Some heartless, cynical fellow says the difference between a feminine hat and a feminine bonnet is that one is worn on the ear and the other on the nape of the neck.

DECORATION DAY.

As previously announced in the OREGONIAN, a meeting of honorably discharged soldiers convened at "Grand Army" headquarters in Good Templar Hall last night, to make preliminary arrangements for the proper observance of "Decoration Day". I. N. Sanders, elected chairman, and D. H. Stearns, secretary.

Motion carried that Post Commander W. S. Newbury be requested to name suitable persons for a finance committee and committee of arrangements.

Rev. J. A. Cruzan extended an invitation to the soldiers and sailors of this city, to attend the Congregational church on the Sunday evening previous to Decoration Day, at which time he would preach an appropriate sermon.

Commander Newbury reported the following committees:

FINANCE—Geo. C. Sears, chairman; H. B. Oatman, J. Urich, J. R. Coker, I. N. Sanders.

COMMITTEE OF ARRANGEMENTS—F. H. Woodward, Geo. C. Sears, I. N. Sanders, D. H. Stearns, F. E. Arnold, C. E. DuBois, Wm. Kapus, F. R. Neil.

Motion prevailed instructing the committee of arrangements to invite Rev. J. A. Cruzan to act as orator of the day. Also the following:

Resolved, That all soldiers of the late Southern army be invited to join in the decoration ceremonies at the cemetery.

After instructing the committee of arrangements to invite military and civic organizations to join in the ceremonies, the meeting adjourned to May 29th, at such time and place as the committee shall designate.

Members of the committee of arrangements are requested to meet at Justice J. E. Evans' office, Cree's building, cor. First and Stark streets, to-night at 7:30 o'clock.

BUSINESS NOTICES.

Himes, the printer, informs the dear public that he can do anything possible in the printing line. Consult him at your earliest convenience.

Some commotion is going on in smoking circles since Wilson & Speck have added to their stock some fine brands of cigars—especially the "Happy" medium, manufactured expressly for this firm. Attention is also called to their imported brands and "Key West" cigars, received by last steamer. The trade supplied.

THE TURF.

This afternoon there will be a trotting match over the White House course 3 best in 5, for a purse of $75. Mr. L. B. Lindsey, the well known driver, who came up on the last steamer from California, will hold the "ribbons" over the gray mare Minnie.

AMUSEMENTS.

THE OPERA—MARITANA.—At length our amusement loving citizens are to have the promised musical treat, in the presentation of a number of popular English operas. The members of the English and Comic Opera Company arrived here last evening from Victoria and the Sound, after a most successful and profitable tour. To-night the brief operatic season will be inaugurated at New Market Theater. Wallace's ever popular opera of "Maritana" will be presented as the initial selection. Of the individual merits of the members composing this company it is superfluous to add more than a passing remark. Miss Jennie Winston, who was such a universal favorite on the occasion of her former visit to Portland, occupies the position of leading soprano, a position for which her charming voice and finished acting is peculiarly adapted. Mr. W. H. Tilla, formerly principal tenor for Clara Louisa Kellogg's English Opera Troupe, and who traveled through the East, will occupy the position rendered vacant by the absence of Mr. Bracy. He comes to us bearing the most favorable endorsement of the press and public, both as an artistic singer and finished actor. Mr. Edward Farley, whose deep, rich and cultivated basso voice afforded such pleasure and satisfaction when he was here some months ago, will, we are pleased to say, occupy his favorite roles in the operas presented. Miss Rose Chapelle is a pleasant and accomplished contralto, and comes well recommended. Miss Ella Lafevre, a good actress and excellent mezzo-soprano, is also a member of the company. Mr. Arthur Bell will personate his favorite *rôles* as buffo, with his usual spirit and vivacity, which, by the way, is indispensably necessary to produce the proper effect. Mr. Louis Bodecker, a very brilliant pianist and excellent musician, will act as musical director, which is quite sufficient guaranty that everything will run without the least friction. "Maritana" will be produced with the full strength of the company. Those who attend may anticipate an evening's delightful entertainment.

DR. BRENAN'S POPULAR DISCOURSE.—Yesterday afternoon there was a large and refined audience of Portland ladies at Masonic Hall, who had the pleasure of listening to one of the finest discourses on the "Health, Happiness and Beauty of Women," which has been delivered in this city for some years. So well pleased were they with the chaste and refined language used by Dr. Brenan in the discussion of this very delicate and important subject, that by a unanimous vote of those present, he was requested to continue the subject in a matinee discourse this afternoon at 2:30 o'clock. There will doubtless be another large assembly in the Hall at that hour to listen to the speaker discuss the questions so vital to humanity. Admission to this lecture is free.

Last evening, at the same hall, Dr. Brenan addressed a very intelligent audience, among them our very best citizens who, when the lecture proper had been listened to with marked attention, showed their appreciation of the same by requesting the doctor to continue the subject to-night. In accordance with this request the subject will be scientifically treated by Dr. Brenan at Masonic Hall to-night at 8:15, admission, 25 cents. Last evening's discourse on Manhood was one of the best of the course. To-night's lecture will enter more fully into the important subject of how to live and what to live for. Dr. B. should feel complimented by the evidence of confidence and appreciation of his efforts as a polished, fluent and logical speaker. A large audience will certainly greet the doctor again to-night.

CATARRH.

A Case of Six Years' Standing, accompanied by distressing symptoms, cured by the use of two bottles of

SANFORD'S RADICAL CURE.

MESSRS. WEEKS & POTTER:

Gentlemen—Please allow me to testify to the great merits of SANFORD'S RADICAL CURE FOR CATARRH. For six years I have suffered greatly, particularly while troubled with a cold. The accumulation of mucus in my head and throat kept me constantly hawking and spitting, rendering my presence in company extremely embarrassing to myself and friends. Six months ago I was induced to try SANFORD'S RADICAL CURE. After using two bottles I find myself nearly if not quite, permanently cured. I have since recommended over one hundred bottles with the greatest success.

Respectfully yours, WM. W. ARMSTRONG,
December 25, 1874. 158 Harrison Av., Boston.

CATARRH.

Helped her the most of any Medicine she ever used.

SIR: Enclosed please find three dollars, for which send me three bottles of SANFORD'S RADICAL CURE FOR CATARRH. The last helped me the most of any medicine I ever used. Yours in respect,

MRS. LAURA S. CHASE,
July 5, 1875. Hardwick, Mass.

CATARRH.

From George W. Shattuck, Esq., late Foreign Entry Clerk, Boston Custom House.

Gentlemen—I have been troubled with Catarrh for several years, but by the use of your remedy it has been greatly relieved. This summer I have been entirely free from it. I make use of it in my family for colds in the head and find it an effectual remedy. I can confidently recommend it to all who are similarly afflicted. Very truly yours,

October 26, 1874. GEO. W. SHATTUCK.

PERSEVERE

In the use of this remedy until cured. It contains the great healing elements of play in their essential form as obtained by distillation.

Catarrh, in its extent and destructive force stands next to consumption, and is closely allied to it; for in certain constitutions the transition from one to the other is only a question of time. It is therefore a singular thing that those afflicted with it should not make it the object of their lives to rid themselves of it. A single bottle of any remedy cannot, in the chronic stage, effect a cure, nor even bring the system under its influence fully. In many such cases the bones and cartilage of the nose are eaten away, the organs of hearing, of seeing and of tasting so affected as to be rendered useless, the uvula so elongated and inflamed as to produce a constant and distressing cough. The return to health must necessarily be slow, under the most favorable circumstances, when so seriously afflicted; but as the evidence of its great value daily comes to hand, we become more satisfied that there does not exist a case of Catarrh that cannot be cured by a judicious and persistent use of SANFORD'S RADICAL CURE FOR CATARRH. The relief in every case obtained from the first dose is an indication of what it will do when the system is brought constitutionally under its influence.

SANFORD'S RADICAL CURE is sold by all wholesale and retail druggists throughout the United States. Price, $1.

Chronic Pleurisy Cured.

Messrs. WEEKS & POTTER:

Gentlemen—Having for many months past suffered with a very lame side, called by my physicians Chronic Pleurisy, caused by a former injury and strain, and for which I used many prescriptions and liniments, as well as the so-called rheumatic cures, without the least benefit, my physician recommended one of your COLLINS' VOLTAIC PLASTERS, which, to my great surprise, relieved the pain and soreness almost immediately and I have been able to attend to my household affairs ever since with perfect ease and comfort, whereas before the application of your invaluable plaster I was scarcely able to do anything. I consider them invaluable, and shall with pleasure recommend them to the afflicted. Yours respectfully,

MRS. FRANCES HARRIMAN.

THE PANTOGRAPH

IS AN EXTRAORDINARY INVENTION FOR printing copies by the thousands from a single autograph writing or drawing. From one writing by this process a thousand permanent fac-simile impressions of circulars, price lists, specifications, examination papers, assessment notices, etc., may be printed in an ordinary copying press, upon any description of paper. Copies may be taken direct from the writing without any of the usual operations of inking, rolling, transferring or type-setting. A proof impression may be produced within five minutes after a manuscript has been completed, and one afterwards multiplied at the rate of five hundred an hour, at an infinitessimal cost.

One Thousand Copies

May be produced from a single sheet of Papyrograph Paper, and a single application of color, at an expense of four cents. It possesses over printing the advantages of an Autograph Letter, besides admitting of illustrations without the expense of wood cuts. It allows autograph letters to pass through the mail as third class matter. It is invaluable to any business. It can be seen in operation at the office of the agent for Oregon.

JUDGE GENTLY.

O, there has many a tear been shed,
And many a heart been broken,
For the want of a gentle hand stretched forth,
Or a word in kindness spoken.

Then, O, with brotherly regard,
Greet every son of sorrow;
So from each of love, his heart
New hope, new strength shall borrow.

Nor turn, with cold or scornful eye,
From him who has offended;
Let the language of reproof
With kindest tones be blended.

The seeds of good are everywhere,
And in the guiltiest bosom,
Should, by quickening rays of love
Put forth their blossom.

While many a tempted soul has been
To deeds of evil hardened,
Who felt that bitterness of grief—
The first offense unpardoned.

WIT AND HUMOR.

"An exchange asks: 'May cousins kiss?' Certainly, if their aunts ain't looking."

The Louisville *Courier-Journal* believes that a judicious poem from Mr. Tupper, addressed to Wendell Phillips, might calm the raging orator.

Don't go to the Black Hills to get rich. It is far easier to organize a life insurance company and pay yourself a salary of $80,000 per year.—*Detroit Free Press.*

A boy was riding on his father's back, when the latter suggested that it was rather an elevated railroad. "Yes, pa," said the youngster, "I'm riding on a dummy."

"To-morrow," wrote Chapin, "may never come to us." And the collectors who are told by men that they will call around to-morrow and settle that, are convinced that Chapin was about three-fifths correct.

New York Shipping and Markets.

NEW YORK, May 4.—A fair business doing at the California vessels, but not to the extent of last week. The fact is shipments are gradually falling off as the season advances. The merchandise markets are in better shape; flour 10@15 better with moderate export demand; wheat also 3@5 higher under more favorable cable advices. Provisions steady, petroleum very easy.

NEW YORK, May 4.—Movements of California bound vessels to-day were fair and included more dry goods than during the past few days, rates of freight being very firm and tend upward under increased demands of shipowners for their vessels. The fact is ships are plenty, but owners are looking forward to higher trans-atlantic freights, which as yet have not come, and hesitate to place their ships except on the basis of 312 or $13 per ton, a figure that is fully $1 or $2 above current rates. The only charter to note is the bark Colusa, 1,139 tons, for Simonson & Rowe's line, to follow the El Capitan, which vessel came in early to-day. Railroad freights have been active, and shipments to-day embrace several lots of cotton piece goods in bales at a rate issued by the agent last week. These shipments were by one or two houses only, and who at the same time made several shipments by clippers. Shipments during the week include over 13,000 packages of merchandise. The principal items are 2,250 cases petroleum and 976 pigs tobacco.

Advices from Philadelphia state that sufficient freight for the Zeta O'Hanlon has been engaged. She will probably finish next week. The Queens town, to follow, has not yet arrived. The merchandise markets, with few exceptions, are rather more active. Flour stronger and holders generally firmer, claiming an advance of 15@25c nearly all through the list and offering less freely, owing to a renewed buoyancy. In wheat in all domestic markets. Wheat under more favorable foreign and Western advices much stronger with better demand for spring grades for export. Sea freight indicated an advance of ¼d p 6c. Winter wheat scarce and steady with sale of choice white Genesee to arrive at $2 30. Hides quiet and holders demand full figures, while buyers ask concessions. Wool still dull; prices for domestic, chiefly California, nominal, while values are unsettled; quality of spring clip is still complained of, some of the samples proving very trashy. Sales include 5,000 lbs fall, 50,000 lbs spring private.

Philadelphia Wool Market.

PHILADELPHIA, May 5.—Wool steady, supply light. Ohio, Pennsylvania and West Virginia XX and above, 42@44c; X, 40@42c; medium, 43@44c; coarse, 32@35c; New York, Michigan, Ind ana and Western fine, 38@38c; combing washed, 50c; do unwashed, 35c; Canada combing, 50c; fine unwashed, 22@27c; coarse and medium unwashed, 25@28c; tub washed, 35@40c; Colorado washed, 18@22c; do unwashed, 14@16c; extra fine merino pulled, 30@35c; No. 1 and super pulled 32@33c; Texas fine and medium, 15@22c; do. coarse, 15@17c; California fine and medium, 20.25c; do. coarse, 18@22c.

English Grain Markets.

LIVERPOOL, May 4.—The leading grain circular says the upward movement in wheat occasioned by the outbreak of war appears to be checked for the present; the great advance obtained Tuesday having caused buyers to act with reserve, and investors allow some money to realize profits. Prices the past two days have been irregular, and about two or three shillings per quarter of the extreme advance was lost at most of the markets. In this interval of trade since Tuesday there has been much reduced prices, and where sales of wheat have been pressed it has been necessary to make concession of five to six pence per cental. Maize has been pressed at a decline of fully a shilling per quarter. At this market to day there was a fair advance in the demand for wheat; the market opened at 40@46d per cental under Tuesday's currencies, but closing strong at about 3 pence decline. Flour was steady. Maize declined 3 shillings per quarter, but closes with an upward tendency.

Good Advice.

Now is the time of year for Pneumonia, Lung Fever, etc. Every family should have a bottle of BOSCHEE'S GERMAN SYRUP. Don't allow for one moment that cough to take hold of your child, your family or yourself. Consumption, Asthma, Pneumonia, Croup, Hemorrhages and other fatal diseases may set in. Although it is not a Cure-All Syrup is cur ng thousands of those dreaded diseases, yet it is much better to have it at hand when these doses will cure you. One bottle will last your whole family a summer and keep you safe from danger. If you are consumptive do not rest until you have tried this remedy. Sample bottles 10 cents; regular size 75 cents. Sold by your Druggist. Agents, Crane & Brigham, Wholesale Druggists, San Francisco.
